## Who We Are

Relief Validation Limited is one of the most advanced Digital Certification Authorities in Bangladesh, enabling people to protect themselves and their assets in the digital landscape when transferring valuable information through online networks. The goal is to create & provide a secure, convenient, and reliable communication experience where everyone can fully enjoy the marvels of a digitized world without the threat of harm or deceit. Through a combination of leading-edge cryptographic technology, convenient integration methods, and a wealth of experience in delivering end-to-end IT solutions behind the scenes, we are the perfect place for you to find your necessary CA services.

**Relief Validation Limited is the result of joint efforts of Mr. Mohammad Shahidul Haque and Dipon Group. Mr. Haque is a former Senior Secretary, Legislative & Parliamentary Affairs Division of the Government of Bangladesh. He was instrumental in passing 479 Acts in the Parliament during his tenure, and has served the people of these nations for over 50 years. Mr. Haque has taken on the role of Chairman of Relief Validation Limited and partnered with DG Infotech and Dipon Infrastructure Services Ltd - concerns of Dipon Group - to lead the charge for the development of secure information technology.**

To that end, Relief Validation Limited is constantly evolving, adapting, innovating, and implementing the latest encryption tools & technologies, to achieve digital trust and safeguard the social and financial progression of the people of Bangladesh.

## Our Vision

Help Bangladesh become a developed nation by 2041 by creating the foundation for a secure and digitized nation and through the eradication of the risk of cybercrimes during the exchange of sensitive data online.

## Our Values

- We do not compromise on quality and always aim to achieve the best in every endeavor
- We believe in constant innovation, evolution, and upgradation of technology and service
- Our priority is our clients and understanding their needs
- We value upholding transparency in all our work and services
- We strive to perform our duties and responsibilities with integrity and dedication

## Our Mission

- Facilitate the authentication & validation of the online identity of individuals
- Safeguard people and their information during data exchange between people, systems, and devices in online communication
- Simplify the means to encrypt/decrypt messages between sender and receiver

## Our Services

**Digital Certificate:** Relief Validation Limited's Digital Certificate service ensures that any exchange of data over the internet, such as a Digital Signature, is encrypted & secure. As the internet is an open communication network with minimal security, our Digital Certificate provides necessary protection, identification, credential access control, and confidentiality between the server and the client.

**Electronic Signature (E-Signature):** Sign & authorize documents anytime and from anywhere in the world in a legally secure manner. Be it PDF, DOC, DOCX, XLS, XLSX, PPT, OR PPTX, take advantage of the accelerating digital transformation and remotely sign documents.

**Timestamping:** Relief Validation Limited's Timestamping software provides independently verifiable, untampered, and auditable time-sensitive information through reliable RFC 3161 Time-Stamp Protocol (TSP).

## Our Services

**Public Key Infrastructure (PKI):** Ensure the continuation of digitization of business processes through a trusted infrastructure that allows high-value electronic transactions, cryptographically secure credentials, and communication of sensitive information.

**e-KYC:** Move the KYC process to the digital landscape with Relief Validation Limited's e-KYC services. Onboard customers in minutes with complete remote identity verification and tailored to your specific needs. Eliminate all doubts and go paperless.

**Digital Stamping:** Forego ambiguity and uncertainty by using Digital Stamps to authenticate digital documents. These stamps are legally binding and indisputable to help companies and public authorities conduct their proceedings.

## The Need for Digital Certificates

The world has experienced a digital transformation over the last two decades, and along with it, so has Bangladesh. The dream of a “Digital Bangladesh” is truly underway and the country and its people embrace the online platform, especially as we, as a nation, accelerate our pace of transformational change towards Vision 2041. And with the growing reliance on online communication networks for authentication & validation of peoples’ identities as well as the exchange of sensitive information through such mediums, the threat of cybercrimes has also risen. That is why it has become imperative to ensure all these data are securely

- **Protection against cyber threats**
- **Ensure confidentiality**
- **Verify identity**
- **Communication of sensitive information**
- **Authorize proceedings**
- **Accelerate the digital transformation and economic growth**

## Why Choose Us

### Secure Online Data Exchange

Our encryption and protection ensure that your highly valuable data is protected from all kinds of threats online.

### Instant Authentication & Validation

Our electronic authentication services assure instantaneous authentication of individual identities to help continue proceedings.

### Integration of Latest Technologies

Our certificates integrate the most advanced tools and technologies such as Lightweight Directory Access Protocol (LDAP) 3.0 and Advanced Encryption Standard (AES) to provide maximum security.

## Our Partners

### DG INFOTECH LIMITED

DG Infotech Limited (DIL) is one of the most trusted names in the IT sector and provides end-to-end solutions to countries across the world. They are a highly experienced electronic payment platform and biometric solution provider for the security, payments, and identification of individuals. As an IT-enabled service provider, DIL has successfully completed many prestigious IT projects in Bangladesh, India, Malaysia, Saudi Arabia, UAE, Guinea, and many other countries. As Relief Validation Limited's partner, DIL brings a wealth of IT experience to the table.

### DIPON INFRASTRUCTURE SERVICES LTD

Dipon Infrastructure Services Ltd (DISL) is a major player in the engineering and infrastructure development sector of Bangladesh. Their decades of experience in handling and completing construction & engineering projects have made them one of the most reputed service providers in the industry. From creating infrastructure for power plants to bridges, DISL has done it all. Their extensive experience has led them to lending their services to some of the biggest organizations in the nation as well as the army.
